

lucite lux[®] fluorescent

GIVES POP DISPLAYS AN ELECTRIFYING EDGE

The Fluorescent edge effect is one of THE most popular choices of designers and fabricators who want their ideas to catch the eye. LuciteLux[®] Fluorescent combines a delicate transparent tinted sheet with a striking fluorescent edge which adds a contemporary touch to point of sale designs and displays.

FEATURES & BENEFITS

- Subtle transparent tints
- Striking fluorescent edge
- Exciting contemporary colors
- Superb cutting and fabrication
- Excellent aesthetics
- Ideal for in store displays, POP, furnishings and shelving

In retail display every inch of floor space is precious and POP displays need something extra to attract attention. LuciteLux[®] Fluorescent offers designers a range of exciting colors with a vivid fluorescent edge effect that will make any design stand out from the crowd.

Designers are inspired by the vibrant colors:

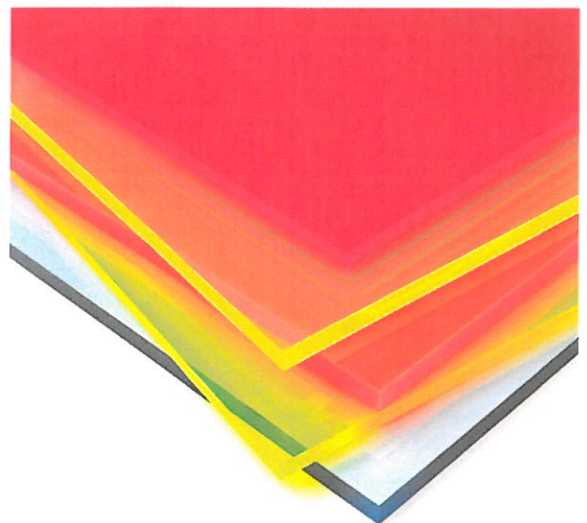

- Mars – a bright, intense red, Helios – a fresh, sunny yellow, Lava – a warm glowing orange,
- Neptune – a deep, vivid blue, Acid – a strong, sharp green and Celestial – a clear, crystalline blue.

APPLICATIONS

- POP
- Display units
- Interior signs and signage
- Interior fittings and furnishings
- And so much more.
